PURPOSE OF THE HANDBOOK

This handbook is to acquaint students, parents, and guardians with the philosophy, rules, and regulations of the elementary schools in the Corporation. Hopefully, it will answer many questions that are important to your child's education. Questions that are not answered in the handbook should be referred to the classroom teacher or the building principal.

The handbook is designed to include all elementary buildings in Clay Community Schools. Items discussed are applicable to all elementary students. We hope that this handbook assists you regarding questions about Corporation policies and procedures. The individual elementary schools will provide students with specific school rules or guidelines unique to their settings.

MISSION STATEMENT

Clay Community Schools exists to meet the individual educational needs of the children of the community by providing a program to develop the skills necessary to earn a living and enjoy a high quality of life. Clay Community Schools shall develop and maintain a standard of excellence in its educational program and maintain a high level of expectation for each student's performance.

PHILOSOPHY

Clay Community Schools' mission of education is to insure that the appropriate instruction is given to all students in order that they may realize their potential to function successfully as law-abiding, contributing, and participating citizens of our democratic society.

The Corporation recognizes that it is entrusted with the most precious and valuable resource of the community, its children, and pledges all means available in providing for their educational welfare. It is concerned with the dignity, integrity, rights, and self-esteem of all students so that they may take advantage of all provisions of the Corporation regardless of race, creed, sex, economic status, disability or cultural background. The Corporation is additionally concerned with the total development of each child including social, emotional, intellectual, physical, and artistic development.

Children differ from each other in a wide variety of attributes such as their talents, interests, cultural background, life experiences, abilities, and the rate at which they learn. The Corporation recognizes these individual differences and the importance of relating instruction to each student's achievements, ability, intellectual, social, emotional, physical, and creative growth and development. Appropriate provisions shall be made for high ability students as well as those students who experience physical, intellectual, or emotional disabilities.

The learning environment must reflect a genuine concern for students as individuals, their problems and needs, and their relationship to others. Order, structure, and discipline are necessary to a feeling of security and a successful climate of learning. This positive climate will allow the individual an optimum opportunity to develop a sense of self-confidence and motivation to learn and succeed.

The skills of reading, composition, computation, and thinking are basic to the acquisition of knowledge and are of prime concern. Students shall be assisted by all means within Corporation resources to acquire these basic skills and to progress as far as their talents, abilities, potential, and motivation permit. It is the Corporation's intent to provide an educational program that will meet students' needs and help them to successfully meet the changing demands of the future. They will be encouraged to develop and apply the skills and tools that will engage them in life-long learning.

The Corporation believes in encouraging and demonstrating pride in our community, state, and nation and in our individual and collective endeavors so that we may always strive to do our best.

HISTORY

Clay Community Schools is a geographically large school district which includes parts of two counties, Clay and Parke. The school district was officially formed as a result of the School Reorganization Act of 1959. A local referendum created the district and it became legally incorporated July 1, 1966. Between the years of 1966 and 1990, many changes took place which substantially changed the complexion of the district both educationally and physically.

The school corporation underwent considerable change in school organization and facility improvement. Of the sixteen schools, ten schools now remain.

EQUAL ACCESS

A comprehensive educational program is currently being offered — kindergarten through twelfth grade.

Clay Community Schools does not discriminate against any student because of race, religion, sex, color, national origin, age, or disability. All students are welcome and encouraged to participate in any school activity, class, or function within their interest and ability.

DISPLAY OF THE UNITED STATES FLAG and PLEDGE OF ALLEGIANCE POLICY

Display of United States Flag

The United States Flag shall be displayed in each classroom in the School Corporation.

Pledge of Allegiance

Each building principal shall ensure that a daily opportunity is provided for students of the school corporation to voluntarily recite the Pledge of Allegiance in each classroom or on school grounds. The building principal shall determine the appropriate time when school is in session for the recitation of the Pledge of Allegiance.

A student is exempt from participation in the Pledge of Allegiance and may not be required to participate in the Pledge of Allegiance if:

- a. the student chooses not to participate; or
- b. the student's parent chooses to have the student not participate.

Students who are exempt from reciting the Pledge shall remain standing or sitting, or shall be allowed to step outside the classroom or area while the others recite the pledge and shall make no display that disrupts or distracts other students who are reciting the Pledge.

During the Pledge of Allegiance, students who participate shall stand and recite the Pledge while facing the United States flag with their right hands over their hearts or an appropriate salute if in uniform.

The student code of conduct applies to disruptive behavior during the recitation of the Pledge of Allegiance in the same manner as provided for other circumstances of such behavior.

The building principal of each building will establish procedures to implement this policy.

MOMENT OF SILENCE POLICY

In order that the right of each student to the free exercise of religion is guaranteed and the freedom of each student is subject to the least possible coercion from the state either to engage in or refrain from religious observation on school grounds, there shall be a daily observance of a moment of silence in each classroom or on school grounds of each school in the school corporation.

During the moment of silence, the teacher responsible for a classroom shall ensure that all students remain seated or standing and silent during the moment of silence and the students make no distracting display so that each student may,

in the exercise of the student’s individual choice, meditate, pray, or engage in any other silent activity that does not interfere with, distract, or impede another student in the exercise of the student’s individual choice.

This “moment of silence” is not intended to be and shall not be conducted as a religious exercise. This policy precludes students from using the occasion to pray audibly or otherwise speak, singly or in unison. Building principals and teachers must not allow or tolerate any coercion or overbearing by anyone to force other students to engage in or refrain from prayer or any other permitted activity under this policy.

The student code of conduct applies to disruptive behavior during a moment of silence in the same manner as provided for in other circumstances of such behavior.

Each building principal shall establish procedures to implement this policy.

ADMINISTRATION OF MEDICATION AT SCHOOL POLICY

1. No medication shall be administered to a student without the written and dated consent of the student’s parent. The consent of the parent shall be valid for only the period specified on the consent form and in no case longer than the current school or program year.
2. All non-prescription medicine to be administered to a student must be accompanied by a statement describing the medicine, the dosage, and the time for it to be administered to the student.
3. All prescription medicine, including injectable medicine, and blood glucose test by finger prick to be administered to a student must be accompanied by a physician’s prescription, a copy of the original prescription, or the pharmacy label. If the medication is to be terminated prior to the date on the prescription, the written and dated consent or withdrawal of consent of the parent is required. The written consent of the parent and the withdrawal order of the physician shall be kept on file.
4. No student shall be allowed to keep medicine at school except as provided by state law. Any medicine to be administered to a student shall be brought to either the principal’s office or the school nurse’s office where it will be kept in a secure place.
5. Unused medicine by a student may be sent home through the student’s parent or an individual who is at least 18 years old and is designated in writing by the student’s parent to receive the medication. Unused medicine may be sent home with the student only with the written permission of the student’s parent.
6. Medication shall be administered in accordance with the parent’s statement (in case of non-prescription medicine) or the physician’s order (in the case of prescription medicine) only by a school nurse or other employee(s) designated by the school principal.
7. All administration of medicine shall be documented in writing.
8. Any designated employee who is responsible for administering injectable insulin or a blood glucose test by finger prick shall receive proper training from a practitioner or registered nurse and kept on file in the school building office.
9. All students with asthma should have an Asthma Management Plan on file, provided by and signed by your physician.
10. All students with diabetes should have a Diabetic Management Plan on file provided by and signed by your physician.
11. Any student receiving routine prescription medication at school must have release of information form on file with the prescribing physician.

ADVERTISING, SOLICITING AND POSTING

The intent of the Clay Community Schools is to protect the educational environment of students and employees from unnecessary outside interruptions. The schools should avoid exploitation through advertising or otherwise promoting

products or services, soliciting funds or information, or securing participation in non-school-related activities or functions. At the same time, schools should inform and assist students to learn about programs, activities, or information that might be of help or service to them. To attempt a fair balance, the following guidelines will apply:

Any announcement, advertisement, posting, or solicitation that contains libelous or obscene language, has the potential to incite persons to commit illegal acts, is insulting to any group of individuals, has the potential to disrupt or interfere with school procedures, or intrude with school affairs, will be prohibited.

Advertising, soliciting of money, soliciting of information or distribution of information or materials directly to students for commercial, political, subversive, or religious reasons will be prohibited.

Distribution of information or materials by outside groups must have prior permission of the building-level administrator. The administration retains the right to reject any and all materials deemed harmful to students and not intended for the good of the students.

Non-school-related information and materials deemed appropriate for students by building-level administrators will be announced to students and will be made available for distribution to students on a voluntary basis for students to take home. Outside information or materials may not be distributed directly to students by school employees, volunteers, or outside groups. Any posting of information and materials by an outside group must have permission of the building-level administrator who will determine the method of announcing, advertising, posting, and dissemination of information or materials in the building.

School-sponsored curriculum, instruction and classroom and co-curricular information and materials may be distributed to students with the approval of the building-level administrator.

Teachers may use instructional models, films, slides, charts, and exhibits that make reference to a brand, product, or service, but may not endorse the sale or use of these products.

This policy is in effect on school property at all times including school curricular and co-curricular events and activities, as well as community events and activities.

ANTI-BULLYING POLICY - 6701

- (a) Bullying is prohibited by the School Corporation. Students who commit any acts of bullying are subject to discipline including but not limited to suspension, expulsion, arrest, and/or prosecution.
- (b) Definition: “Bullying” is defined as overt, unwanted, repeated acts or gestures, including verbal or written communications or images transmitted in any manner (including digitally or electronically); physical acts committed; aggression; or any other behaviors committed by a student or group of students against another student with the intent to harass, ridicule, humiliate, intimidate, or harm the targeted student, creating for the targeted student an objectively hostile school environment that:
1. places the targeted student in reasonable fear of harm to his or her person or property;
 2. has a substantially detrimental effect on the targeted student’s physical or mental health;
 3. has the effect of substantially interfering with the targeted student’s academic performance; or
 4. has the effect of substantially interfering with the targeted student’s ability to participate in or benefit from the services, activities, or privileges provided by the school.

Bullying does not include behaviors by students:

- participating in a religious event;
- acting in an emergency involving the protection of a person or property from an imminent threat of serious bodily injury or substantial danger;
- participating in an activity consisting of the exercise of a student's freedom of speech rights;
- participating in an activity conducted by a nonprofit or governmental entity that provides recreation, education,

- training, or other care under the supervision of one (1) or more adults;
- participating in an activity undertaken at the prior written direction of the student's parent; or
 - engaging in interstate or international travel from a location outside Indiana to another location outside Indiana.
- (c) **Applicability:** The School Corporation prohibits bullying in all forms. This policy may be applied regardless of the physical location in which the bullying behavior occurred, whenever the individual committing the bullying behavior and any of the intended targets of the bullying behavior are students attending a school within the School Corporation and disciplinary action is reasonably necessary to avoid substantial interference with school discipline or prevent an unreasonable threat to the rights of others to a safe and peaceful learning environment. The School Corporation prohibits bullying through the use of data or computer software that is accessed through any computer, computer system, or computer network.
- (d) **Education:** All students are required to receive information on anti-bullying measures.
- (e) **Reporting:** Anyone who believes that a student has possibly been or is the victim of bullying is required to report the situation within 24 hours to an appropriate staff member such as a teacher, school counselor, or administrator (including the Superintendent). All staff who observe or receive a report of suspected bullying shall immediately notify a designated school administrator in charge of receiving reports of suspected bullying. If a staff member does not know who to make a report to, he or she should report directly to the building principal or Superintendent. Bullying reports to the Department of Child Services and/or law enforcement must be made as required by law, such as when a staff member believes that a student is the victim of abuse or neglect. Any person who makes a report of bullying and requests to remain anonymous will not be personally identified as the reporter or complainant to extent permitted by law. The School Corporation will act appropriately to discipline staff members who fail to initiate or conduct an investigation of a bullying incident and for persons who falsely report an incident of bullying.
- (f) **Investigation:** Once a report of suspected bullying is received by the designated school administrator, an expedited investigation shall follow. The investigation should be facilitated by the designated school administrator or other appropriate school staff. Information relating to the investigation will be gathered using means including, but not limited to: witness interviews, request for written witness statements, record identification and review, and an assessment of whether bullying occurred. The investigation will be initiated within one (1) business day of the report to the designated school administrator and will ordinarily be completed within thirty (30) calendar days.
- (g) **Intervention/Responses:** If a report of suspected bullying is substantiated through an investigation, then the School Corporation shall take appropriate intervention and responses as consistent with policy and procedure. The School Corporation will take prompt and effective steps reasonably calculated to stop the bullying, remedy the bullying, and prevent the bullying from recurring. Interventions and responses may include, but are not limited to: separating the bully and the target; follow-up school counseling for the target; bullying education for the bully; and prompt disciplinary action against the bully. These steps should not penalize the target of the bullying. Disciplinary actions against the bully may include, but are not limited to: suspension and expulsion for students; discharge for employees; exclusion for parents, guests, volunteers, and contractors; and removal from any office for governing body members. Also, if the acts of bullying rise to the level of criminal offense the matter will be referred to law enforcement.
- (h) **Parental Involvement:** Parents are encouraged to be involved in the process of minimizing bullying. Parents should report suspected acts of bullying to an appropriate school official. In addition, parents of students suspected of bullying will be notified with a phone call or through other appropriate means of communication. Conversely, parents of students suspected of being the target of acts of bullying will also be notified with a phone call or through other means of appropriate communication. Parent notifications will occur in an expedited manner within one (1) business day after the designated school administrator receives the report of suspected bullying. Parents of students who are disciplined for acts of bullying will be involved in the disciplinary process consistent with the law and School Corporation policy.

Anti-Bullying procedures and forms are located in Board Policy Appendix U. (Legal Reference: I.C. 5-2-10.1, 20-20-8-8, 20-30-5-5.5, 20-33-8-0.2, 20-33-8-13.5, 20-34-6-1)

ATTENDANCE DISTRICTS

A student shall attend the school in the school attendance boundary in which his/her custodial parent or legal guardian resides unless authorized by the superintendent or his designee.

Proof of official guardianship or official notification that guardianship will be awarded must be presented to the administration at the time of enrollment.

Students who do not qualify to attend school in Clay Community Schools' district must pay tuition per **IC 20-26-11**.

Transfer tuition costs per month (9 months) for the 2021-2022 school year may be obtained from the Director of Business Affairs at Central Office. Transfer tuition costs increase substantially for students enrolled after the ADM count day in September 2020. Transfer Tuition costs are subject to change based on state and local regulations and may change in the middle of the academic year.

ATTENDANCE POLICY

A student enrolled in Clay Community Schools is expected to attend school each day. School attendance is compulsory under Indiana law (**IC 20-33-2**). Parents who permit their children to be absent without valid excuses are in violation of this law. Clay Community Schools intends to uphold vigorously the Indiana Statutes relating to school attendance.

Learning is a continuous process and, if broken by absences or tardiness, your child may miss all or part of a learning skill. If your child has been absent because of illness, the teacher will do his/her best to help him/her make up the work. However, group discussion and group work are very important and cannot be made up.

School officials will carry out the following policy:

- A.** After any absence, the parent is required to send a brief note or phone the school stating the reason for the absence. If a student's absence will exceed two days, the parent should contact the school office and request assignments.
- B.** Excused Absences
 - 1.** Personal illness of the student
 - a.** requires a note or phone call from the parent;
 - b.** absences in excess of three days in a row will require a physician's statement.
 - 2.** Death in the immediate family.
 - 3.** Medical, dental, or other clinical appointment for the student.
 - a.** for the time needed to make the visit to the doctor;
 - b.** parents should make every effort to schedule appointments outside the school day.
 - 4.** Quarantine
 - 5.** Student has to testify in court, pursuant to a subpoena or verified court appointment, or other absences authorized by state law.
 - 6.** If a student becomes ill at school and is sent home by school officials, the date of absence may be considered a certified absence.
- C.** Prearranged excused/unexcused absences (holiday, vacation, family travel and religious holidays)
 - 1.** The parent/guardian must write a letter to the principal prior to the first day of a family trip identifying the dates and places involved. This letter must be approved by the principal.
 - 2.** It is the child's responsibility to make up the missed work within the same number of days as the absence.
- D.** All other absences will be considered unexcused. Unexcused absences have a direct impact on student achievement. Therefore, students may not receive grades for work missed during the absence.
- E.** Students will be considered tardy if they are not in the classroom or accounted for at the beginning of the academic day.
- F.** Excessive absences and excessive tardies (ten or more days per semester) may be questioned by the principal even if there have been written parent/physician excuses.

The procedure that will be followed when a student has accumulated absences is as follows:

1. Fifth absence — A letter may be sent to the parents informing them of the absence.
 - a. Students who exceed five absences in one semester, regardless of the nature of the absences, will be required to provide a doctors slip or obtain pre-approval for any additional absence for the remainder of the semester. Failure to meet these requirements will result in an unexcused absence. Ten or more unexcused absences will result in a report being filed with the Department of Child Services.
2. Seventh absence — A parent conference may be held and an attendance contract may be required.
3. Ninth absence — The student and parent shall, per Indiana Code, be requested to conference with the principal/school attendance officer, the Department of Child Services, and/or the Juvenile Probation Department. All absences over the limit are considered unexcused.
4. Habitual Truant — A "habitual truant" is defined as a student who has eleven (11) or more days of unexcused absences in one school year. The principal/attendance officer may meet with the student, parent, and an official from the Department of Child Services, and/or the Juvenile Probation Department, regardless of the total number of absences.

Habitual Absence Under **IC 20-33-2-25**, the Superintendent or an attendance officer having jurisdiction shall report a child who is habitually absent from school in violation of this chapter to an intake officer of the juvenile court or the department of child services. The intake officer or the department of child services shall proceed in accord with **IC 31-30- through IC 31-40**.

- G.** A student missing 10 or more days of instruction per semester may jeopardize his/her chances for promotion. A student absent from school will not be permitted to participate in an event or practice that day unless the absence is prearranged with the principal.

Every effort will be made to encourage maintenance of good attendance habits.

BREAKFAST AND LUNCH PROGRAM

Students who purchase breakfast and/or lunch from the school cafeteria are encouraged to make deposits in his/her lunch account for at least one week of meals. Funds can also be added to a student lunch account using a debit/credit card by visiting www.myschoolbucks.com. Account balances can be checked after 5:30 p.m. through the PowerSchool Parent Portal.

Breakfast is served daily in the cafeteria at the beginning of the school day. Price is \$1.25.
Procedures on Charging School Meals

Elementary-A student is allowed to charge an amount equal to 3 breakfasts and 3 lunches. After the charge limit is reached, the student will be served a peanut butter sandwich and milk. Students with a documented food allergy will be provided with an alternative choice. Since the student is not receiving the required menu items, the cost will be incurred by the school district. There will be negative balance letters sent home each day with the students to let the parent know the student needs to deposit money in their lunch account. The cafeteria manager will call the parents if they have not received any response to the letter.

Information is provided to every student at the beginning of the school year concerning the free and reduced breakfast and lunch program, and application forms. Parents who wish to apply for free or reduced meals for their children should complete the required form to determine if they are eligible. We encourage parents to use the on-line application available at www.schoolunchapp.com, however, paper applications may be requested from the student's school. All students in CCS within your household are to be listed and submitted on one application form.

This institution is an equal opportunity provider.

BUILDING VISITORS

All school visitors are to report to the administrative office before going to other parts of the building. Advance notification of visitors and reason for visit should be cleared with the principal. **STUDENTS ARE NOT TO BRING STUDENTS OR GUESTS TO SCHOOL WITHOUT PRIOR APPROVAL OF ADMINISTRATION.** The school will not summon a student out of class unless the person inquiring is the legal guardian, spouse, or a person who holds a signed statement from the legal guardian.

CLASSROOM RULES

Each classroom teacher will identify certain rules and regulations. He/she shall discuss these rules and regulations with his/her students during the first week of school. In order to accomplish the basic goals of education, teachers will expect students to be knowledgeable of and follow all rules and regulations to the best of their abilities.

COMPUTER USAGE

Computers are provided throughout the school for academic purposes. Students who attempt to alter the current configuration of any computer without the supervising teacher's permission are interrupting that education purpose. Any addition or modification of computer programs and operating systems is prohibited. The making of illegal copies of programs or destroying programs is also prohibited. Students may not bring programs from home to use on school computers. Any inappropriate use of computers in the school setting will be considered acts of vandalism.

CRIMINAL GANGS AND CRIMINAL GANG ACTIVITY IN SCHOOLS POLICY - 6702

The Board of School Trustees of the Clay Community Schools Corporation prohibits gang activity and similar destructive or illegal group behavior on school property, on school buses, and/or at school-sponsored functions and prohibits reprisal or retaliation against individuals who report gang activity and similar destructive or illegal group behavior or who are victims, witnesses, bystanders, or other people with reliable information about an act of gang activity and similar destructive or illegal group behavior.

The following definitions apply to this policy: Criminal Gang means a group with at least three (3) members that specifically:

1. either:
 - a. promotes, sponsors, or assists in; or
 - b. participates in; or
2. requires as a condition of membership or continued membership; the commission of a felony or an act that would be a felony if committed by an adult or the offense of battery.

Gang activity means a student who knowingly or intentionally actively participates in a criminal gang, or a student who knowingly or intentionally solicits, recruits, entices, or intimidates another individual to join a criminal gang.

Per state law, a school employee shall report any incidence of suspected criminal gang activity, criminal gang intimidation, or criminal gang recruitment to the principal or the school safety specialist. The principal or the school safety specialist may take appropriate action to maintain a safe and secure school environment, including providing appropriate intervention services. Appropriate consequences and remedial actions are those that take into consideration

the severity of the offenses and consider both the developmental ages of the student offenders and the students' histories of inappropriate behaviors per the code of conduct.

Any corporation and school employee who promptly reports an incident of suspected gang activity and who makes this report in compliance with the school corporation procedures is immune from a cause of action for damages arising from any failure to remedy the reported incident.

The principal or designee shall conduct a thorough and complete investigation for each report of suspected gang activity. The investigation shall be initiated by the principal or the principal's designee within one school day of the report of the incident. The principal may appoint additional personnel and request the assistance of law enforcement to assist in the investigation. The investigation shall be completed and the written findings submitted to the principal as soon as possible, but not later than five school days from the date of the report of the alleged incident of criminal gang activity.

The principal shall take any appropriate disciplinary actions based upon the findings of the investigation, in accordance with the code of conduct. The superintendent of the school corporation is authorized to define the range of ways in which school staff and the principal or the principal's designee shall respond once an incident of criminal gang activity is confirmed, according to the code of conduct. Consequences for a student who engages in gang activity may range from positive behavioral interventions up to and including suspension or expulsion.

The principal shall provide the parents of the students who were investigated with information about the investigation. The information to be provided to parents includes the nature of the investigation, whether the corporation found evidence of criminal gang activity, and whether consequences were imposed or services provided to address the activity. This information is to be provided in an expedited manner.

As appropriate to the investigation findings, the principal also shall provide intervention and/or relevant support services. The principal shall inform the parents of all students involved in alleged incidents and discuss the availability of counseling and other intervention services.

Support services may include one or more of the following:

CRISIS MANAGEMENT AND PREVENTION

Clay Community Schools considers the safety of our students and staff to be a top priority. In an effort to provide a safe and orderly environment for all students and staff, Clay Community Schools, in conjunction with the Clay County School Safety Commission, has adopted a corporation-wide Crisis Prevention Plan. All personnel have received crisis prevention and management training; as well as, an emergency procedure guide. Clay Community Schools has also adopted the **ALICE** Program as its active shooter training program. It is our hope that by educating and training our staff, we will be more prepared to react in the proper manner should a crisis situation occur.

In addition, we work closely with local law enforcement agencies to provide a safe and secure environment.

The following information explains the Lockout/ Lockdown Codes:

LOCKOUT: Schools are operating under heightened alert status. Buildings and classrooms will be locked, but students will participate in normal classroom activities. Students are not to leave their classrooms unless an adult is with them. Students will not be released from school until law enforcement personnel and school officials have determined that the situation is safe. Student sign-out locations and procedures will be determined and announced at each building, depending on the specific situation. No outside activities will be conducted.

LOCKDOWN: Schools are in total lockdown mode. Students will not be released from school until the LOCKDOWN status is lifted. This may extend beyond the regular school day. In the event that a LOCKOUT or LOCKDOWN is declared in CCS, local media will be contacted. Information will then be announced on local television and radio stations. The information will also be posted on the CCS website, www.clay.k12.in.us.

Your knowledge of the codes is extremely important.

CURRICULUM / INSTRUCTIONAL PROGRAM

In Clay Community Schools, it is our goal to insure that the students receive the very best education possible. We look forward to working with each parent and student to help us accomplish this educational goal. The most successful educational programs are those in which the parents and teachers work together for the benefit of the child.

Every effort has been taken to insure that your child has the most qualified teacher using the most appropriate teaching strategies, locally developed curriculum, the best resources available, and a learning environment that is conducive to positive learning.

The elementary school instructional program follows the requirements of the Indiana Department of Education. Grades kindergarten through five are full days and offer programs in English/language arts, which includes reading, writing, spelling, and penmanship; social studies, health, mathematics, science, music, art, and physical education. Clay City Elementary offers a full day program for kindergarten through sixth grade.

If at any time during the year you have questions or concerns about the educational program, please feel free to contact the teacher or building principal.

DIRECTORY INFORMATION

Directory information is information that is generally not considered harmful or an invasion of privacy if released and can be disclosed to outside organizations without a parent's prior written consent. The school corporation may release certain "directory information" including the student's name, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, the most recent school attended, address, telephone listing, parent home and work telephone numbers, electronic mail address, photograph, videotape not used in a disciplinary matter, grade level, student I.D., user I.D. or other personal identifier that cannot be used to access education records without a PIN, password, motor vehicle description (including license plate number), hair and eye color, race, sex, height, weight, student work displayed at the discretion of the teacher with no grade displayed, etc., and other similar information without parental consent to newspapers, magazines, radio and television, colleges, civic organizations or similar groups, state or local government, or publish such information in its own publications, programs, or by other means unless the parent notifies the school district in writing by September 1 that he/she does not want any or certain designated directory information released to such parties. If a student enrolls after September 1, a parent or student has 14 calendar days after enrollment to submit an objection in writing to the building principal. A school corporation must continue to honor such an opt-out request when the student leaves school until the student, or parent in case of an eligible student, rescinds the opt-out request.

Parents desiring to object to this disclosure of all or certain of the categories of directory information to parties not entitled to access of such information under Section IV (A) of this policy should state denial in writing to the principal's office.

A parent may deny consent for release of all directory information or he/she may selectively deny consent by identifying those categories or directory information he/she does not wish released about his/her child.

Building principals shall ensure that parents and eligible students are informed of their right to object to the release of directory information.

**FAMILY VACATIONS QUALIFYING AS EDUCATIONALLY RELATED
NON-CLASSROOM ACTIVITIES**

The Clay Community School Cooperation understands that family trips can be an important educational experience. **Indiana Code 20-33-2-17.5** allows the governing body of a school corporation to authorize the absence and excuse of a student who attends any educationally related non-classroom activity, including family trips.

In order for the absence to qualify, the educationally related non-classroom activity must meet all the following conditions:

Is consistent with and promotes the educational philosophy and goals of the school corporation and the state board.

- Facilitates the attainment of specific educational objectives.
- Is a part of the goals and objectives of an approved course or curriculum.

Represents a unique educational opportunity.

- Cannot reasonably occur without interrupting the school day.
- Is approved in writing by the school principal.

Under IC 20-33-2-17.5 Compulsory attendance; exceptions; educationally related non-classroom activity; non-classroom activity; The Clay Community Schools' governing body will allow the building principal discretion in excusing, for up to ten (10) days, student absences for family trips. The building principal may excuse the absences if the parent or guardian indicates that the family trip is for educational purposes (e.g., a trip for an educational or cultural experience), the parent indicates the length of time the student will be away and when the student will return, the principal agrees in writing that the purpose of the trip is educational, and the student completes all regular classroom assignments. **Please note*, family trips are not school sponsored, therefore the absences will not be excused for the purposes of building level perfect attendance calculation.

In addition to the previously stated stipulations, the building principal may require assignments based upon the Indiana State Standards to be completed by the student prior to the student returning to school. If the building principal requires the student to complete assignments, failure of the student to submit the completed assignments on the date the student returns to school will result in the family vacation days being considered unexcused.

GRADING SCALE

In an effort to establish consistency in grading practices throughout Clay Community Schools, to make the best use of the student data management system, and to provide a clear, valid and reliable system of grading for teachers, students and parents, the following grading scale is required:

Percent	Grade	Numerical Equivalent	Range (maximum & minimum range within which a letter grade will be assigned)
100	A+	4.0	4.000
93-99	A	4.0	4.000 – 3.834
90-92	A-	3.667	3.833 – 3.500
88-89	B+	3.333	3.499 – 3.167
83-87	B	3.0	3.166 – 2.834
80-82	B-	2.667	2.833 – 2.500
78-79	C+	2.333	2.499 – 2.167
73-77	C	2.0	2.166 – 1.834
70-72	C-	1.667	1.833 – 1.500
68-69	D+	1.333	1.499 – 1.167
63-67	D	1.0	1.166 – 0.834
60-62	D-	0.667	0.833 – 0.500
0-59	F	0.0	0.499 and below

Computing Semester Grades:

Semester grades are figured on a ratio of 42.5%:42.5% :15% for each grading period and final exam. Each nine weeks grade is equivalent to 42.5% of a semester grade. The final exam is equivalent to 15% of the semester grade. A numerical

equivalent is assigned to each letter grade given at the nine weeks and final exam and an arithmetic average is computed. That average falls into one of the ranges and that range is then re-converted to a letter grade.

HABITUAL TRUANT POLICY

- A. A “habitual truant” is defined as a student who has eleven (11) or more days of unexcused absences in one school year.
- B. All students who are at least thirteen (13) years of age but less than the age of fifteen (15) years, and who are determined to be a habitual truant per the definition above, are subject to **Indiana Code 20-33-2-11**, which provides that any person who is determined to be a habitual truant as defined by school board policy cannot be issued an operator’s license or learner’s permit until the age of eighteen (18) years, or until the student’s attendance record has improved as determined by the school board upon the review of the student's record.
- C. Procedures developed for the administration of this law shall include provisions for periodic review of all students determined to be habitual truants, and their reclassification, when warranted.

HEAD LICE

Head lice have become more and more of a problem over the last few years. Your help in inspecting your child at least weekly throughout the school year for the presence of head lice would be greatly appreciated and assist in keeping the problem under control.

If a student is found to have live lice, parents are notified, and the student is sent home to be treated. Classrooms are vacuumed, desks are cleaned, and bathrooms are disinfected daily at school.

Please notify the school nurse if you suspect your child is infected with head lice or you have any further questions regarding treatment or need financial assistance. A detailed letter describing treatment and removal of head lice will be sent home at the beginning of each school year and is available in the school office.

HEALTH SERVICES

The nurses will routinely screen students' vision in grades K, 1, 3, 5, and 8 and hearing in grades K, 1, 4,7 & 10.

HOMEWORK

The Board recognizes that homework is a worthwhile activity for students. Homework is an out-of-school assignment that contributes to the educational progress of the student. It should be an extension of class work and should be related to the objectives of the curriculum presently studied.

Teachers may give homework to students to aid in their development. The type, frequency, and quantity of homework assigned should be determined by the teacher to meet the needs of the students. Homework should be an application or adaptation of a classroom experience; it should not be assigned for disciplinary purposes; assignments before school vacation should be avoided and homework should be distributed throughout the grading periods.

Homework should fulfill the following purposes or objectives:

- to review, to reinforce, or to extend classroom learning by providing practice and application of knowledge gained;
- to teach students responsibility and organizational skills and encourage independent study;
- to promote wise and orderly use of time;
- to encourage a carry-over of worthwhile school activities into permanent career and leisure interests;
- to provide opportunity for broad enrichment.

ILEARN

The Indiana Learning Evaluation Assessment Readiness Network measures what students know and are able to do at each grade level. Based on Indiana’s Academic Standards, ILEARN provides a learning check-up to make sure students are on track and signal whether they need extra help. FOR TEST DATES, INFORMATION, AND VALUABLE SUPPLEMENTAL INFORMATION, WE ENCOURAGE YOU TO VISIT WWW.DOE.IN.GOV

The ILEARN Assessments are criterion-referenced assessments developed specifically for students completing their instruction in Math (Grades 3-8) English (Grades 3-8) Science (Grades 4 & 6) Social Studies (Grade 5).

ILL STUDENTS

Please remember to keep children home if they are vomiting, have diarrhea, or fever. Students with a temperature over 100 degrees Fahrenheit will be sent home. Students should be fever free for 24 hours without FEVER REDUCING MEDICATIONS before returning to school. During outbreaks of flu or other communicable diseases are prevalent students should be fever free and symptoms improved for 72 hours without FEVER REDUCING MEDICATION.

This certification must be delivered to the school annually.

Even in the event that one or more immunizations are not required due to a parent's objection or a physician's certificate that such immunization is harmful to the child, the child's parent must still furnish the written statement described in Part A, although such statement need not show that the immunizations in question have been given.

Students may not, under any circumstances, use another individual's account. Do not give any passwords to another individual. Attempts to login to the system as any other user may result in suspension or cancellation of user privileges. Any user identified as a security risk or having a history of problems with other computer systems may be denied access to the CCS network and the Internet.
- 7. Privacy** — Users should not expect that files stored on any school-based computer will always be private. MRSA

Since 2000, the number of healthy adults and children with MRSA (methicillin-resistant *S. aureus*) bacterial infections has steadily increased. We have only had a few isolated cases in our schools but want to make parents aware of this infectious disease and how you can best prevent becoming infected.

MRSA is almost always spread by direct physical contact and not through the air. Transmission of MRSA may also occur through indirect contact by touching objects, such as towels, clothes, bandages, or sports equipment contaminated by the infected skin of a person with the bacteria. If you are aware of your child having MRSA, please inform the school, so that appropriate measures can be taken to protect others from the infection.

Please notify the school nurse if you suspect your child is infected with MRSA or you have any further questions. A detailed letter describing how you can help prevent and control MRSA may be found on our school web site.

NON-CUSTODIAL PARENTS

Upon request, a non-custodial parent, unless restricted by a court order, will be given access to all student report cards, student records, and disciplinary actions. The parent will also be allowed to participate in conferences, classroom visitations, and all other activities.

The student will not be released to the non-custodial parent unless written permission is given by the custodial parent.

A certified copy of a court order restricting the rights of the non-custodial parent shall be provided to the principal should a custodial parent wish to prohibit the distribution of information to, and the school visitations of, the non-custodial parent.

NOTIFICATION OF ASBESTOS MANAGEMENT PLAN

Under the Asbestos Hazard Emergency Response Act (AHERA) of 1986, Clay Community Schools is required to notify annually all school building employees, building occupants or their legal guardians of the availability and location of the Asbestos Management Plans and of any post-response action activities, including periodic re-inspections and surveillance activities that are planned or in progress.

In the past year the only AHERA related activities conducted have been the routine maintenance of building materials and the periodic surveillance of all building materials to maintain current information on the condition of materials in our buildings, and to ensure that these materials remain in good condition. In 2019 ASTESCO Laboratory, Inc., an accredited consulting firm, conducted the AHERA mandated 3 year re-inspection of all school buildings. Supplemental inspections have been conducted since that time. The 3-Year Re-inspection will be conducted in 2022. The records of these surveillances are available at the Administration Office.

In the coming year the only planned activities, under the AHERA Standard, is routine maintenance of building materials and the periodic surveillance of all building materials. The periodic surveillances are scheduled for October 2021 and

April 2022. The AHERA Management Plans are available for public review at the Administration Office. This notice satisfies the annual notification requirement for Clay Community Schools under the AHERA Standard.

NWEA

The Measures of Academic Progress (MAP) is a computerized leveled test created by Northwest Evaluation Association, located in Portland, Oregon. The test measures your child's general knowledge in reading, language usage, and math.

Students in grades kindergarten through 2 will take the NWEA tests in the fall, winter, and spring of each school year to help track student progress or growth in these basic skills.

The NWEA may also be used to make determinations for high ability designation.

PESTICIDE APPLICATION POLICY

Clay Community Schools is committed to providing students a safe environment. It seeks to prevent children from being exposed to pests and pesticides. While pesticides protect children from pests that may be found in the school and its surrounding grounds, under some circumstances they may pose a hazard to children. Therefore, pest control practices may involve a variety of chemical and non-chemical methods that are designed to control pests effectively while minimizing potential pesticide exposure to children.

Pesticides will be applied by certified pesticide applicators only when students and staff members are not present, such as during non-instructional time or school vacation periods.

The school will provide notice to any parent who requests such notice at least two school days prior to the date the pesticide application is to occur. If you would like to be given notice of pesticide applications, please notify your building principal. You will be given a form to complete and you will be notified of any pesticide application with at least a 48 hour advanced notice.

A complete copy of the pest control policy is available upon request from your building principal or the Central Administration Office. The contact person for additional information is the Director of Extended Services at (812) 443-4461.

The principal may also recommend further disciplinary action including denial of riding privileges for the rest of the semester or school year. In each case, the student will be afforded an opportunity for an informal meeting.

Types of Disciplinary Action

The types of disciplinary action taken by the school administration may include but will not be limited to the following:

•Conferences	•Seclusion and Restraint	•Expulsion
•Detention	•In-school suspension	•Referral to Juvenile Court
•Corporal punishment	•Suspension	•Other Courses of Action

Definitions and Procedures for Disciplinary Action

- *Conferences* — May include counseling with a teacher, guidance counselor, or administrator concerning the behavior problem and recommendation for improvement. Parents may be asked to participate in the conference.
- *Detention* — Additional time assigned at school, either before, after or during regular school hours (including lunch), under supervision. Students who have detention time to serve are responsible for arranging their own transportation. The detention will be served on the day or days assigned by the principal or designee.
- *Corporal Punishment* — The use of corporal punishment (padding) by a teacher or principal is governed by both state statutes and state and federal court decisions. The administering of corporal punishment must be by a teacher or principal in the presence of a school official (teacher or principal) who must be informed of the reason for the punishment beforehand in the presence of the student.
- *Use of Seclusion and Restraint* – Policy 6433

Seclusion is the involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving while provided adult supervision. Seclusion may be used to:

1. restore order to the classroom environment;
2. remove the student from a reinforcing environment;
3. permit the student's emotions to cool down; or,
4. permit the student to engage in a problem-solving process with another staff member.

Physical restraint is holding a student or otherwise restricting his or her movement. Physical restraint may be used to control the behavior of a student when that student's behavior poses an imminent danger of causing physical harm to the student or others. When restraint is deemed necessary, Clay Community Schools will make every effort to have staff members who are trained in restraint techniques implement the restraining technique. Other school personnel may employ restraint procedures only in clearly unavoidable emergency circumstances when fully trained school personnel are not immediately available. Untrained staff shall request assistance from trained staff as soon as possible.

Seclusion and restraint are last resort interventions that provide the student an opportunity to regain self-control while protecting the safety of the student and others. Both interventions will be used as a last resort in maintaining a safe and orderly learning environment for all students and staff. Any school employee or school resource officer using restraint shall report such to the building principal, their supervisor, or other designated administrator. A written report of each incident shall be completed by the employee or school resource officer who used such techniques or by the designated administrator. The written report is needed to contain the information required by the school corporation's seclusion and restraint plan. Parents/guardians will be notified of any use of seclusion or restraint with their child as soon as possible (within 24 hours). Legal Reference: **I.C. 20-33-8**

- *In-school Suspension* — Time will be spent, during regular school hours, in an assigned area with supervision. Work missed or its equivalent may be made up for full credit. The student's teachers will be notified of the suspension and the student will receive assignments for completion. The completed make-up work is due when the student returns to class after the suspension period.
- *Suspension* — Disciplinary action whereby a student is separated from school attendance for a period of ten (10) days or less and which does not constitute an expulsion. When expulsion is recommended, the student may be suspended by the superintendent or designee until the date of the expulsion meeting. It is the responsibility of the student to obtain assignments from his/her teachers. The completed make-up work is due when the student returns to class after the suspension period.

Students, including special education students, may be suspended by the principal for no more than ten (10) school days for conduct constituting grounds for expulsion or suspension, including any misconduct or substantial disobedience.

No suspension may be made without affording the student an opportunity for an informal meeting. At the meeting the student is entitled to:

1. a written or oral statement of the charges against him; and
2. if he denies the charge, a summary of the evidence against him; and
3. an opportunity to explain his conduct.

Notice and the informal meeting shall precede suspension of the student except where the nature of the misconduct requires immediate removal. In such a situation, the notice and informal meeting shall follow as soon as reasonably possible after the suspension.

Following suspension, the principal shall send a written statement to the student's parents describing the student's misconduct and the action taken by the principal.

Special education students may be suspended using the same procedure.

- *Expulsion* — Disciplinary action whereby a student:
 1. is separated from school attendance for a period in excess of ten (10) days;
 2. is separated from school attendance for the balance of the then current semester or current year unless a student is permitted to complete required examinations in order to receive credit for courses taken in the current semester or current year; or
 3. is separated from school attendance because his legal settlement is not in the attendance area of the school corporation where the student is enrolled.

When a request for expulsion of a student is filed with the superintendent, the student may be suspended by the principal for no more than ten (10) days. However, the student may be suspended by the superintendent or

designee until the date he makes his expulsion decision, if he determines that the student must be suspended immediately to prevent or substantially reduce the risk of:

1. interference with an education function or school purposes; or
2. a physical injury or illness to himself, other students, school employees, or visitors to the school.

However, no student shall be suspended pending an expulsion meeting if the expulsion is requested because the student's legal settlement is not in the attendance area of the school corporation.

When expulsion proceedings are initiated, the student and his parents will be sent forms which state the charges of misconduct, explain the procedure for requesting a meeting, and describe the meeting procedures.

Special education students may be expelled from school, but only if a case conference precedes the due process procedure. In the event of an expulsion, educational and related services shall not cease. Educational services are determined by the case conference committee.

- *Referral to Juvenile Court* — When a student physically assaults a person having authority over the student, the principal shall make a referral of the student to the juvenile court. "Physical assault" means the knowing or intentional touching of another person in a rude, insolent, or angry manner.
- *Other Courses of Action* — The superintendent, principal, administrative personnel, any teacher, bus driver, or any other person authorized to be in charge of a school function or event is authorized to take such action in connection with student behavior as is reasonably desirable or necessary. Such action shall be taken to help any student, to further school purposes or to prevent an interference therewith, including, but not limited to counseling, parent conferences, assignment of additional work (other than homework), rearrangement of class schedules, requiring the student to remain in school after regular school hours, restriction of extra-curricular activity, removal from a teacher's class for a limited time, or removal from school sponsored transportation.

STUDENT INSURANCE

The school corporation does not carry insurance to cover student injuries and/or to cover loss or damage to a student's personal property.

STUDENT POSSESSION AND SELF-ADMINISTRATION OF MEDICATION

Students may possess and self-administer medications while at school, a school event, or traveling to and from school events under certain conditions. Those conditions are:

1. The parent must file an authorization annually with the principal for the student to possess and self-administer the medication.
2. The parent's authorization must include a physician's statement which includes the following:
 - a. The student has an acute or chronic disease or medical condition for which the physician has prescribed the medication.
 - b. The student has been instructed how to self-administer the medication.
 - c. The nature of the disease or medical condition requires emergency administration of the medication.

STUDENT RECORDS

The Family Educational Rights and Privacy Act, passed by Congress in 1975, provides that parents' rights extend until the student is eighteen years of age, or is enrolled in a post-secondary institution even if he/she has not yet reached his/her eighteenth birthday. An eligible student is one who has reached the age of eighteen or is enrolled in a post-secondary institution.

The law requires that schools receiving Federal funds must:

1. Allow the parent or eligible student to review and inspect the student's record during normal school operating hours. This rule does not apply to records made and kept by one person, such as a psychologist or social worker, which are not shared with anyone but a substitute for that person.
2. Give the parent or eligible student the chance to challenge the records in a hearing to make sure that they are not misleading or inaccurate.
3. Obtain written permission from the parent or eligible student before revealing the records to other persons.
4. Notify parents or eligible students of their rights under this law.

There are some exceptions to rule number 3 above. School personnel may show or turn over records without written permission to:

1. Other officials of the same school including teachers.
2. Officials of other schools in which the student seeks or intends to enroll.
3. Certain federal, state, and local authorities performing functions authorized by the act.
4. Individuals or organizations in connection with a student's application for receiving financial aid.
5. Court or law enforcement officials as permitted by law.

Also, in an emergency, the school may turn over records if failure to do so would probably result in a threat to the subject's health or safety of that of others.

A complete policy governing the collection, classification, and accessibility of data or permanent records has been adopted by the school board. A copy may be obtained upon request.

STUDENT SUICIDE PREVENTION AND AWARENESS POLICY-6704

The purpose of this policy is to protect the health and well-being of all students by having procedures in place to prevent, assess the risk of, intervene in, and respond to suicide. The corporation recognizes that physical, behavioral, and emotional health is an integral component of a student's educational outcomes, and that suicide is a leading cause of death among young people. The corporation has a responsibility to take a proactive approach in preventing deaths by suicide and acknowledges the school's role in providing an environment which is sensitive to the factors that place youth at greater risk for suicide and helps to foster positive youth development.

This policy covers actions that take place in the school, on school property, at school-sponsored functions and activities, on school buses or vehicles, at bus stops, and at school-sponsored out-of-school events where school employees are present.

Referral information for crisis intervention services will be made available to Clay Community Schools students, parents, and staff members. Availability of information concerning suicide prevention services in the community will also be provided, as well as counseling services, as related to suicide prevention, for students and their families (corporation website, counselor's office, and nurse's office). Cooperation among Clay Community Schools and suicide prevention services in the community is encouraged.

When a student is identified by a staff member as potentially suicidal or a student self-refers, the student will be seen by a school nurse, counselor, and/or an administrator within the same school day to assess risk and facilitate referrals. The student will be supervised, and a parent of the student will be contacted during the same school day. Law enforcement and/or other emergency services may also be contacted.

Post-intervention plans should include the identification of and providing services for other high-risk students to prevent another death. School nurses, counselors, administrators, and other school personnel will work with teachers to identify students who are most likely to be significantly affected by the death. Suicide warning signs will be reviewed and

procedures for reporting students who generate concerns with the staff will be provided. Students identified as being more likely to be affected by the death will be counseled by school personnel or health professionals. Parents of these students will also be contacted to inform them of the school’s concerns. Counselors and area clergy will be on-site at the school to provide assistance to impacted students and staff members during the aftermath of a suicide involving a student or staff member.

Beginning after June 30, 2018, all Clay Community Schools teachers and any other appropriate Clay Community Schools employees who provide instruction to students in any combination of grades 5-12 shall be required to attend at least two (2) hours of evidence-based in-service youth suicide awareness and prevention training every three (3) years. The training required under this policy must be held during the teacher’s or employee’s contracted day or at a time chosen by the teacher or employee.

For purposes of this policy, “teacher” includes the following:

A superintendent who holds a license under IC20-28-5	A teacher	A school counselor	A school nurse
A Principal	A librarian	A school psychologist	A school social worker

The format of the training may include: an in-person presentation; electronic or technology-based medium, including self-review modules available on an online system; an individual program of study of designated materials; or, any other method approved by the governing body that is consistent with current professional development standards. Training will also include increasing the awareness of the relationship between suicide and drug and alcohol use and training on the warning signs and tendencies that may be evidence that a child is considering suicide. The training must be approved, recommended, or listed as approved by the Suicide Prevention Resource Center or the National Registry of Evidence-Based Programs and Practices of the Substance Abuse and Mental Health Services Administration.

Other programs and activities may be developed to increase child suicide awareness and prevention.

Purpose of Drug Testing

Drug and alcohol abuse in school is a threat to the safety and health of students, faculty, staff, and the community as a whole. It jeopardizes the efficiency and quality of educational programs and has the potential of physical harm. The risks associated with such abuse include impaired judgment, diminished capacity, illness, addiction, and conditions that substantially inhibit a person from performing to his/her fullest ability.

Drug testing of Clay Community Schools students suspected of drug or alcohol use is not intended to be disciplinary or punitive in nature. The educational opportunities offered in various schools will continue to direct students away from drugs and alcohol and toward a healthy, safe, and drug-free life. Every parent has the right to expect that each student is receiving the best education that can be provided by Clay Community Schools, free from the risks and dangers of drug and alcohol abuse.

Testing statistics and results, which shall not include specific student identification, shall be compiled at the end of each school year and made available to the Central Office Administration and to the School Board.

Reasonable Suspicion Drug Test

All students enrolled in Clay Community Schools are subject to reasonable suspicion drug testing. Clay Community Schools may require any Clay Community Schools student to submit to a chemical test of the student's breath, saliva, or urine if the administration has reasonable suspicion to believe that the student is using or is under the influence of alcohol, marijuana, or any other illegal substance while:

- a. On school grounds.
- b. Off school grounds at a school activity, function, event, or any other school-sponsored activity.
- c. When traveling to or from school by bus or other transportation.

If reasonable suspicion for drug or alcohol use exists, the administrator, or his designee, may conduct a search of the student's clothing, locker, personal belongings, or automobile, as necessary to ascertain whether the student has possession of any alcohol, marijuana, or other illegal substance. Reasonable suspicion may arise from the following:

- a. A student's behavior.
- b. A student's physical appearance, demeanor, and/or odor.
- c. Any other circumstance which suggests that the student has recently used alcohol, marijuana, or any other controlled substance.
- d. Information communicated to an administrator by a teacher, parent, law enforcement personnel, other adult, or another student indicating that a student is using or under the influence of alcohol, marijuana, or any other illegal substance.

Any administrator, health services personnel, or law enforcement officer trained to administer drug tests may conduct the test of a student's breath, saliva, or urine. After reasonable suspicion has been established by the administrator, a student's refusal to submit to drug testing will result in the administration proceeding as if the test were positive. Agreement to submit to reasonable suspicion testing for the use of drugs and alcohol shall be a condition for participation in extracurricular activities in Clay Community Schools.

The cost of one school-initiated breath, saliva, or urine test will be paid for by the school corporation. A parent or student may elect to have the student retested at a healthcare facility of their choosing. However, Clay Community Schools shall not acknowledge any retesting results if the student refused the drug or alcohol test requested by Clay Community Schools administration. Further, the school's retest form must be completed before retesting is done and the retest must be completed within 24 hours of the school's drug and alcohol test. A student who has tested positive for drugs or alcohol, including a student who has refused to submit to testing, shall be suspended from school until the retest results are provided to the administration, and procedures for expulsion may be initiated. Clay Community Schools is not responsible for the cost of retesting.

Drug testing results are considered confidential by the Clay Community Schools administrative staff, but may be discussed with a student's guidance counselor or other school employee if it is deemed necessary by the administration in order to provide assistance to the student or for the safety of other students. Any student who attempts to alter or substitute a breath test, saliva test, or urine sample may be disciplined by the administration. Both the student whose breath, saliva, or urine sample was altered or substituted and the student who provided the altered or substituted breath, saliva, or urine sample may be subject to discipline, including suspension or a recommendation for expulsion.

Positive test results will result in disciplinary action. Disciplinary action may include mandatory participation in a drug counseling assistance program approved by Clay Community Schools, drug and alcohol prevention activities, suspension, or recommendation for expulsion. Students who test positive and participate in parking/driving privileges or extra-curricular activities, are subject to restriction of those privileges as recommended by the administration and/or as outlined by any additional rules and regulations established by Clay Community Schools.

TELEPHONE USE

Children will be permitted to use the telephone if their health or safety is involved. Use of the telephone may be denied for forgotten homework, musical instruments, books, gym shoes, and other similar articles. Telephones may not be used to make arrangements to go home with other students.

Students may not use cell phones on school property without permission. Cell phones are to be turned off and kept in your locker or backpack during school hours. If a student chooses to bring an electronic device to school, the security of the device (IPOD, CD player etc.) is the responsibility of the student. At no time will the Clay Community School Corporation be responsible for preventing theft, loss, or damage to electronic devices brought onto its property.

Important telephone messages from parents will be delivered to the student. Other uses of the telephone by the students will be approved or disapproved by the principal or designee depending on the circumstances.

TEXTBOOK RENTAL AND OTHER FEES

Clay Community Schools, in keeping with the provisions of Indiana Law, provides a textbook rental program for all students. All students regardless of lunch status will be charged full replacement cost for lost or damaged textbooks, novels, workbooks, agendas and library books.
