

# Clay Community Schools In-Person Instruction Plan

The United States Department of Education requires school corporations to review and revise their in-person instruction plans every six months through June of 2023. The following are the practices and protocols of the CCS In-Person Instruction Plan:

- **Post signage regarding the importance of frequent hand washing and other recommended hygiene practices**
- **Provide hand sanitizers in CCS facilities and on buses**
- **Conduct enhanced cleaning throughout the day**
- **Conduct routine air filtration inspections and cleaning**
- **\*Face coverings (masks) required for students and staff who test positive and return to school on day 6 and will be required to be worn on days 6 – 10.**
- **Clean and disinfect buses on a daily basis**
- **Provide guidelines and protocols to parents and employees for symptoms and illnesses of communicable ailments**
- **Encourage students and employees to stay home if ill and/or symptomatic**

Individual school circumstances may dictate additional measures beyond this plan, and school principals will work closely with Central Office and the CCS Director of Health Services when making these decisions.

This plan may undergo revisions, if necessary. Mandates from local, state, and federal agencies will be followed, and recommendations from these agencies will be considered.

Parents and employees are encouraged to educate themselves about the decisions they choose to make regarding face coverings (masks), vaccines, and other health-related choices.
