PROFESSIONAL DEVELOPMENT

- **Train the Trainer Model:** Teacher leaders throughout the district will take part in learning best practices for 1-1 classroom implementation. These teachers will then provide ongoing professional development opportunities.
- **Five Star Academy Courses**
  - ✓Introduction to Blended and Online Teaching
  - ✓Technology Integration 101
  - ✓Designing Digital Learning Spaces
  - ✓The Data-Driven, Student Centered Classroom
- **Summer of eLearning**

EDUCATIONAL FRAMEWORK

- SAMR MODEL: Designed to help educators integrate technology into teaching and learning, was developed by Dr. Ruben Puentedura, Ph.D. The model aims to enable teachers to design, develop, and integrate digital learning experiences that utilize technology to transform learning experiences to lead to high levels of achievement for students.

DIGITAL LEARNING MONTH - FEBRUARY

We encourage all teachers to participate in Digital Learning Month, a nationwide celebration of innovative teachers and common-sense, effective applications of digital learning in America's schools that support teachers, improve learning, and provide options for students to achieve at their highest potential. Digital Learning materials and resources support educators at all levels as they navigate the shift to more robust digital learning environments to achieve higher standards for students.
