CRADLES's Vision:

Nationally, 70% of all teen parents drop out of school, but... CRADLES envisions student parents taking their place in local communities as self-sufficient citizens within healthy family units. CRADLES will support student parents pursuing an education by providing developmentally appropriate childcare, parenting and life skills education, and mentoring.

CRADLES's Mission:

We are a family learning ministry dedicated to:

Cultivating
Responsible
Adults
Developing
Leadership
Education
Self-sufficiency

The CRADLES Program:

- CRADLES is open to any high school, Adult Education, or post-secondary student in Clay County
- High quality childcare for children six weeks to age 5
- Subsidized care is available with qualifying parents paying a minimal fee (parents are responsible for providing diapers, formula and baby food)
- Student parents are required to attend parenting workshops offered on-site. These include:
 - *child development/parenting
 - *CPR
 - *stress management
 - *career development
 - *finances
 - ...and more!
- School year is the same as Clay Community Schools
