

The following are activities that we will work on this week. All of these activities are based on the Indiana Academic Standards for Math and English Language Arts for kindergarten students.

- We will focus especially on identifying the numbers 11-20. We will match the numerals 11-20 with that number of objects.
- We are talking daily about two dimensional shapes. We identify the shapes (circle, square, triangle, rectangle, oval, hexagon, and diamond) and talk about the number of sides and corners the shapes have.

Story of the Week:
Miss Bindergarten Takes a Field Trip with Kindergarten by Joseph Slate. (We will talk about rhyming words in this book.)

Alphabet Letters of the Week:

We will especially focus on these letters and sounds...

Mm	Tt	Aa	Ss	Pp
Cc	Ii	Nn	Bb	Rr

We will sound out words with these letters.

Sight Words of the Week:

for	me	with
-----	----	------

We will continue to work on identifying and producing rhyming words.

We will talk about what syllables are!
 We will begin to count syllables in words!
