## ILEARN

We will soon know our ILEARN testing schedule. The students have worked so hard for this exam. They are ready to prove themselves. Stay tuned for testing dates. :)

## Field Trip

We had an absolutely amazing field trip. The students were so excited to see all of the sites and were so very well behaved. They absolutely went crazy when they were told they could kiss the bricks. Silly kids! Thank you again to the chaperones for taking a day off to help us.!

## Being on Time

I can't stress enough the importance of having your child to school in a timely manner. When your child is tardy, they come into school feeling behind from the get go. This can be an overwhelming feeling to overcome. Accidents happen and tardies occur periodically, however, a tardy every week is really difficult on the tardy student.
