

# Native American Project

You can choose from two types of projects. Either project is fine to choose, but you must complete one or the other.

You can choose to do a poster about a specific group of Native Americans. The poster must contain specific details about the group. The more details the better. Details might include, food, customs, beliefs, tools, weapons, crops, animals, resources, shelter, clothes, fun facts, etc.

You can also choose to build a model replica of any of the types of shelters that we have studied in this chapter. Models should be small enough to fit on a desk top. While working on the model remember the resources used by the Native Americans.

Projects or posters are due Friday, September 13, 2019. If you have any questions feel free to call or email.
