The Diesel Equipment Technology Program at Wabash Valley College would like to reward your junior and senior students, who are interested in a career in diesel technology, by inviting them to the Wabash Valley College campus for Diesel Day, a day of technical training and fun, on **October 16, 2024**. The criteria for selecting the students will be at your discretion; however, we would like the students to have an interest in this area.

Registration will begin at 8:00 a.m. CST in the Theatre and the day will conclude at approximately 2:30 p.m. CST. The Day will begin with an orientation of the Diesel Equipment Technology Program and an overview of the agenda for the day. The students will then break into groups for technical training. They will meet technical representatives from the Ag, Heavy Truck & Construction industries, and will have the chance to discuss career opportunities with those representatives. The Diesel Equipment Technology Club will prepare a complimentary lunch. After lunch, the students will continue in their groups for the remaining technical training. Our agenda of events for Diesel Day includes hands-on opportunities for your students.

This is a great opportunity for your students to gain insight into the high-demand field of Diesel Equipment Technology. We hope that you will take the time to offer your students this opportunity. We also encourage instructors, counselors, and parents to attend. Please RSVP with the names of the students and instructors and/or counselors that will be joining us by **October 2, 2024**, so we can plan lunch and arrange training groups. We ask that you please send your RSVP via email to baldings@iecc.edu.

If, at any time, you would like one of our instructors to come to your classroom and discuss the Diesel Equipment Technology Program at Wabash Valley College with your students, please call or email me to make an appointment.

We hope to see you at Wabash Valley College on October 16. If you have any questions or concerns, please call, and speak with Scott Balding at 618-263-5191 or Eric Scheller at 618-263-5193. You may also contact us by e-mail at baldings@iecc.edu or schellere@iecc.edu.

Thank you,

Scott Balding
