

e-Learning Activities for 5/4/20

Parents, I tried my best to put these activities together so that you can do these activities at home with your child with things you have around the house. You can click on the underlined texts below to link you to the websites you will need. I am also including the website in case it is easier for you to copy and paste the website.

Literacy/Language Arts

Scholastic Reading/Book Study <https://classroommagazines.scholastic.com/support/learnathome/grades-prek-k-week-2.html> **10 minutes**

This link will take you to a great resource from Scholastic. Scroll down to Day 10: Animal Studies – Roosters, Hens and Chicks. Click on 'Take me there'. There you will be able to read a short book to them and they can watch another. Scholastic has some great resources to work on vocabulary (Word Match) and sequencing (Which Came First?). Fact or Fiction is probably too hard for preschool.

ABC Song <https://www.youtube.com/watch?v=OtiMJLzbZk> **2 minutes**

Have students sing the alphabet. Please make sure they are separating L M N O P.

Fill in the missing letter **5 minutes**

If you have a printer, print the second page of this document. If you do not have a printer, just have students look at it on the screen. Have them point to every letter as they say it. When they come to a blank space, have them tell you what letter goes in the blank. If you can't print the WS just let them write the letter on a separate sheet of paper.

Math

Calendar <http://more.starfall.com/?t=291200204&nrb=1&y=1> **2 minutes**

Click on this link. When it takes you to the website, click on the picture of the calendar at the top right next to Seasonal or it will be located under the 4 'I'm Reading' button.

Shape Song <https://www.youtube.com/watch?v=coZfbTlzS5I> **2 minutes**

Have students practice singing their Days of the week. They should be able to sing them correctly for you by this point in the year, but if they need help you can listen to this song as a reminder.

Making Shapes **8-10 minutes**

Let your child use items around the house to practice making shapes with straight sides. Some things you might use are toothpicks, Q-tips, straws, pens or pencils, popsicle sticks or just cutting out small strips of paper that are the same length. Then have them put the item you choose together as a square, rectangle, triangle, diamond, hexagon, or octagon. This would be a great time to talk about why you cannot make a circle or an oval helping them think about round vs. straight sides on shapes.

Get Moving (Optional)

Just Dance Kids – Hokey Pokey <https://www.youtube.com/watch?v=yAHGcx0J2Sc>

This is a fun video with a song and dance many kids are familiar with.

Fill in the Missing Letter

Students should point to each letter of the alphabet as they say it in order. When they come to a blank, they can write the letter on this paper or a separate piece of paper. If you can print, students can trace the letters they see as well for some extra practice later.
